**HOW TO AVOID  
BECOMING A VICTIM  
ON A DATE**

## SAFETY CONSIDERATIONS

- 16 years old is the age of sexual consent; if less, immediately discontinue all communication;
- social networks: if too little information on the page, or it was recently created – this is a reason for caution;
- meeting place: choose it yourself.

## THE DATE IS ON?

### PREPARATION:

- charge your phone;
- password-protect your phone;
- only crowded place (cafe, bar, shopping center);
- video cameras and (or) security at the meeting place– even better!
- do not take large sums of money, bank cards, documents, valuables;
- take only cash and a small amount.

### AT THE MEETING:

- another person came? Immediately leave and do not talk to them!
- remember the exact address where you are heading together.

## IN THE APARTMENT

- upon entering, lock the door yourself;
- your friend said that its his apartment, but it's clearly a rent-for-a-day? Leave immediately;
- if someone is trying to open the door from outside, do not open!
- urgently call your friends, and the police: those who are behind the door should hear your calls, that can make them change their mind about the crime.

## CRIMINALS IN THE APARTMENT

- do not panic;
- ask to see the "bait/victim"'s passport; in cases known to us, the "bait/victim" was over 18;
- speak calmly, do not provoke;
- remember in detail the appearance of criminals;
- do not talk about personal life, give false information;
- remember - these criminals are ordinary scammers (even if they tell you they are policemen or the media);
- convince them you'll transfer money not immediately, but later;
- try to position them under the surveillance cameras;
- if you are at the ATM, block the card by entering the PIN code incorrectly.
